Small Space Storage Checklist

Work through one room at a time. Tick what you already have, circle what you need, and skip anything that doesn't fit your space.

Before you buy anything

- ☐ Measure every wall, door swing and the gap under the bed
- ☐ Note your ceiling height and the space above doors
- ☐ Check your lease rules on drilling and adhesive hooks
- ☐ List what actually lives in each room, then declutter first
- ☐ Pick one room to finish before starting the next

Entry and hallway

- ☐ Wall hooks or a rail at two heights (coats and bags)
- ☐ Slim shoe cabinet or a shoe rack that fits under a bench
- ☐ Small tray or wall pocket for keys and mail
- ☐ Over-door hooks on the front or closet door
- ☐ Mirror with a ledge to bounce light and hold small items

Living room

- ☐ Coffee table or ottoman with hidden storage
- ☐ Floating shelves above the sofa or desk height
- ☐ Baskets that fit your shelf depth, all one style
- ☐ Narrow console behind the sofa for lamps and chargers
- ☐ Cable box or tray to hide cords and remotes
- ☐ One clear surface you keep empty on purpose

Bedroom

- ☐ Under-bed boxes or drawers sized to your bed's clearance
- ☐ Bed risers if the frame is too low for storage
- ☐ Nightstand with a drawer, or a wall shelf instead
- ☐ Tall narrow dresser instead of a wide low one
- ☐ Over-door organizer for shoes or accessories
- ☐ Off-season clothes in vacuum bags or labeled bins

Closet

- [ ] Slim matching hangers to free rail space
- [ ] Second hanging rod for shirts and folded trousers
- [ ] Shelf dividers to keep stacks from toppling
- [ ] Hanging organizer for sweaters or shoes
- [ ] Top shelf bins with labels facing out
- [ ] Hooks on the inside of the door

Kitchen

- [ ] Shelf risers to double cabinet space
- [ ] Under-shelf baskets for wraps, foil and dish towels
- [ ] Magnetic knife strip or rail to clear the counter
- [ ] Pull-out or lazy Susan for deep corner cabinets
- [ ] Matching clear containers for dry goods
- [ ] Over-sink or over-door rack for cleaning supplies

Bathroom

- [ ] Over-toilet shelf unit or wall cabinet
- [ ] Tension shower caddy or corner shelf
- [ ] Drawer dividers or small bins for daily items
- [ ] Hooks instead of a towel bar where space is tight
- [ ] Under-sink organizer that works around the pipe

My measurements

Wall to fill _____

Under-bed gap _____

Closet rod width _____

Cabinet depth _____

Back of door _____

Four rules that make small storage work

- Go vertical first. Walls and doors are the cheapest storage you already have.
- Buy containers last, after you know what you are keeping and where it goes.
- Choose one material and color for baskets and bins so shelves look calm, not cluttered.
- Give everything a home near where you use it. Storage across the room does not get used.
